

MAC 1140 Course Calendar
Term Ends: 4/29/2018

First Day of Class: 01/08/2018
Last Day of Class: 04/22/2018

Activity	Description	Due Date
Orientation: Module 1	<u>Introduction to Functions and Graphs</u> Required reading: Sections 1.1, 1.2, 1.3 and 2.6	01/13/2018 11:59 PM
Module 2	<u>Linear Functions and Models I</u> Required reading: Sections 1.4, 1.6 and 2.5	01/20/2018 11:59 PM
Module 3	<u>Linear Functions and Models II</u> Required reading: Sections 1.5 and 2.4	01/27/2018 11:59 PM
Module 4	<u>Quadratic Functions and Equations</u> Required reading: Sections 3.1 - 3.4	02/03/2018 11:59 PM
Module 5	<u>Nonlinear Functions and Equations I</u> Required reading: Sections 3.5 - 3.8	02/10/2018 11:59 PM
Module 6	<u>Nonlinear Functions and Equations II</u> Required reading: Sections 4.1 - 4.5	02/17/2018 11:59 PM
	Proctored Midterm Exam (Available from 02/15/18 8:00 AM to 02/19/18 8:00 AM)	02/19/2018 8:00 AM
Module 7	<u>Exponential and Logarithmic Functions I</u> Required reading: Sections 5.1 - 5.3	02/24/2018 11:59 PM
Module 8	<u>Exponential and Logarithmic Functions II</u> Required reading: Sections 5.4 - 5.6	03/03/2018 11:59 PM
Module 9	<u>System of Equations and Inequalities I</u> Required reading: Sections 6.1, 6.2 and 6.7	03/10/2018 11:59 PM
Module 10	<u>System of Equations and Inequalities II</u> Required reading: Sections 6.3 - 6.6	03/24/2018 11:59 PM
Module 11	<u>Conic Sections</u> Required reading: Sections 7.1 - 7.3	03/31/2018 11:59 PM
Module 12	<u>Introduction to Sequences, Counting, The Binomial Theorem, Mathematical Induction and Partial Fraction Decomposition</u> Required reading: Sections 11.1 - 11.6 and 6.8	04/14/2018 11:59 PM
	Project on Limits: Required reading: Sections 12.1 - 12.3	04/21/2018 11:59 PM
	Proctored Final Exam (Available from 04/19/18 8:00 AM to 04/23/18 8:00 AM)	04/23/2018 8:00 AM

Note that weekly graded discussion topics/projects will be posted at Blackboard with different due dates. All online homework and quizzes at MyLab will be due by **11:59 PM** on **Saturday night**. [Please login to Blackboard at least three times a week.](#)

This course is based on *Hornsby: A Graphical Approach to Precalculus with Limits, 6th Edition*.

Disclaimer: Changes in the syllabus, course calendar, evaluation procedure and any assignments may be made at the discretion of your professor.
